

About Global Group of Companies

Established since early 1970, The Global Group of companies has a history of dedicated team with the talented expertise to move your cargo. Global Airfreight Singapore is the head office of the Global Group which comprises our regional offices in Asia handling not only airfreight, seafreight, warehousing and local distribution, but also with special focus in various verticals including project cargoes, aviation, pharmaceuticals and electronics. Together, we provide our customers with a complete supply chain solution. We are linked worldwide with top partners in over 50 countries to provide specialized service to both shippers and consignees. As a result, we are able to extend our services to major international gateways in Asia, Europe, USA, Latin America and Africa. We are recognized internationally as a member of World Air Cargo Organization (WACO), Professional Project Group (PPG) and PharmaFreight.

Above all, we are best at what we do - constantly delivering high standards of service and innovating solutions to all our customer's requirements.

Mission

In pursuit of Customer Delight, we always provide Reliable Quality Service

Our Strengths

- Our people are focused on delivering solutions with **Quality Service**. Talented people are our core at Global; we work with integrity, reliability to develop a shared understanding and trust between our customers and us.
- Our **Worldwide Network** allows on time delivery and collection to countries within Asia, Europe, USA, Latin America and Africa. These coupled with our close rapport with airlines/carriers, we are able to pass on competitive rates to our valued customers especially in the niche areas of Aviation, Pharmaceutical, Oil and Gas, Projects and Electronics. By land, air or sea, we have the talented expertise in shipping all modes of shipments.
- We specialize in **Cool Chain and Temperature Control** for pharmaceutical transport. We develop custom ambient temperature profiles specific to our customer's product distribution. For **Oil and Gas (Projects)**, GAI manage the shipping of large out of gauge pieces such as: pipe, steel, machinery and oil field equipment. In the field of **Aviation**, our transportation system is specialized to move aviation parts, engines and even entire helicopters. We have a 24hours AOG hotline.

Global's Strategies: In-Plant Programme

In Global there is a continuous focus on talented human resource and our sharing of In-plant programme with our partners. We place experienced staff to customer premises to ensure seamless coordination between customer's logistics department and Global Airfreight. We are able to provide immediate response to our customer's need. It also allows us better understanding of our customer's requirements as we want to enhance their current work processes. This will lead to an overall increase in productivity.

Why Choose Global?

At Global, we see you as a strategic partner and we will walk and grow together with you. We will provide customized operating procedures along with end-to-end logistics solutions and services. Our strong regional and worldwide networks will ensure the safe handling of all your shipments. With 40 years of excellent experience, we deliver the utmost reliable service to delight our customers.
